Timeblindness refreance 4 sheet

a	b
c	d
e	f

A clock

B day of the week

C 15 minute

D first half second half

E 2 by 3

F 24 hours

(treat it as poster you dont write in it. Or science poster)

You want to know the next 3 hours look at it and look down. If it 7 am +3 hours is 10 am and so on. How to *add* 2 hours look for the next one that is under line. If it not underline look for the next non underline

how to add 30 minute first you look at the minute it is now and round down in thes section D . Then you look what minute is

5,35	10,40	15,45
20,50	25,55	30,00
Minute		

(1,7)	(<u>2,8</u>)	(3,9)
(<u>4,10</u>)	(5,11)	(<u>6,12</u>)
Hours		

\ /

(: D))--

/ \

' Round down()= hours “” ____underline means even hours

Example this is for bottom right

5,35	10,40	15,45
20, 50	25,55	30,00
Minute		

(1,7)	(2,8)	(3,9)
(4,10)	(5,11)	(6,12)
Hours
